

SPOTTING CABINET

EC-77 SERIES

Features and strengths

- Spotting cabinet totally built in stainless steel
- Working surface 110 x 63 cm
- Internal vacuum unit for fumes extraction by 0,5 hp (0,37 kW) motor
- Lighting device
- Two spotting guns with relative tanks
- One drying gun
- Soap gun with 5 liters tank
- Two stainless-steel swing arms (big and small) with their independent 0,5 hp (0,37 kW) vacuum motor
- Active carbon filter
- Voltage 230 V / 1 Ph / 50 Hz

Options

- Self contained PED approved stainless steel generator 5 liters capacity - 4 kW, water feed pump
- 10 liters plastic tank
- Air-steam gun

TYPE		EC-77
Voltage	V	230 V / 1 Ph / 50 Hz
Vacuum unit	kW	0,74
Compressor power	kW	-
Air inlet	Ø	1/4"
Steam inlet	Ø	3/8"
Condensate discharge	Ø	3/8"
Vacuum outlet	mm	100
Air pressure	bar	8 - 10
Steam pressure	bar	4,5
Net weight	kg	160
Gross weight	kg	175
